

23L Stainless steel pedal waste bin

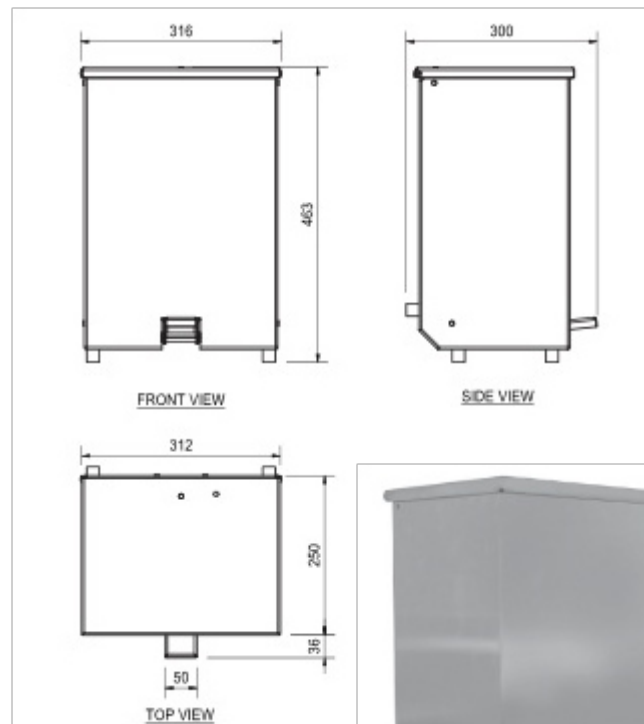

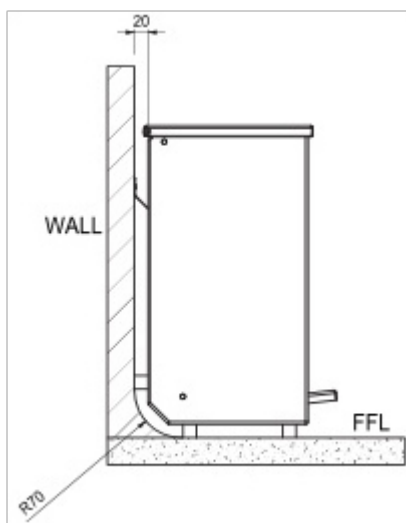

Wall and floor mounted pedal bin manufactured from grade 304(18/10) stainless steel with a satin finish. Comes with integrated chamfered bottom back corner suitable for radiused hospital floors. The unit is supplied with rubber feet. If wall mounted, the unit should be installed with the foot pedal not more than 100mm above the finished floor level for the pedal to be foot operated. The unit has a 23L capacity.

The unit includes brackets, stainless steel screws and dowels.
