

Vandal resistant 9L duct cistern

C-CIS-DUCT

DESCRIPTION

The vandal resistant 9L duct cistern is made from acrylonitrile butadiene styrene (ABS plastic). ABS plastic is a tough thermoplastic and is ideally suitable for vandal prone installations due to its excellent impact-resistance, durability, rigidity.

The C-CIST-DUCT comes with 90° PVC elbow flush pipe, flush mechanism and a remote push level arm with chrome plated button.

Installation is easy with supplied plastic frame to position the push button arm and mechanism correctly over the cistern.

Suitable for most standard toilets with back entry pipe.

SCOPE OF DELIVERY:

- Chrome plated push button actuator with chain
- ABS white plastic 9L cistern
- Pull flush mechanism.
- Positioning plastic frame for accurate installation
- Diagram instruction manual included.
- Down 90° connection pipe to toilet 400x300mm
